EDUCATION

Manipal University Jaipur

Bachelor of Technology in Computer Science (CGPA: 9.37)

Jaipur, Rajasthan

Aug. 2024 – May 2028

EXPERIENCE

Software Developer (Contract)

June – Aug. 2026

Independent Client – Former Director, Ministry of External Affairs

Remote

- Architecting a professional multilingual digital platform for a high-profile diplomat and academic, implementing robust English-to-Hindi internationalization (i18n).
- Integrated the **Resend API** to power scalable, reliable transactional email workflows for the platform.

PROJECTS

TrackHire | Next.js, Supabase, Groq API, Gmail API

2026

- Built an AI pipeline using **Groq** (qwen/qwen3-32b) to auto-classify Gmail recruiter emails, extract structured JSON, and update application statuses with zero manual input.
- Implemented **Gmail OAuth 2.0** with server-side token refresh and per-user email deduplication to prevent redundant LLM calls across daily cron scans.

FormulaForge | Next.js, FastAPI, Supabase, Groq, Tavily

2026

- Personal formula vault with **LaTeX rendering**, confidence tagging, and hierarchical folder organization.
- Built a multi-agent backend with an orchestrator routing to QuizAgent, EvalAgent, and a **Tavily**-powered PYQAgent for real past-year question retrieval with generative fallback.

Bias Mirror | FastAPI, React, XLM-R, Hugging Face

Oct. 2025 – Dec. 2025

- Built a full-stack AI platform to detect sociolinguistic biases (gender, race, religion) using a fine-tuned XLM-R transformer model.
- Architectured a custom deployment pipeline that decoupled a 1.1GB model on Hugging Face Model Hub from a FastAPI backend on Hugging Face Spaces to bypass free-tier memory limits.
- Developed a responsive React frontend with Vite, featuring real-time data visualization via Chart.js to map bias intensity scores.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C, HTML/CSS

Machine Learning: Scikit-learn, Pandas, NumPy, PyTorch, Hugging Face, Groq API, Gemini API

Frameworks/Libraries: React, Next.js, Node.js, Express.js, FastAPI, LangChain, Chart.js

Tools & Platforms: Git, GitHub, Supabase, MongoDB, Vercel, Render, Railway, Resend, Kaggle, Google Colab, VS Code

CERTIFICATIONS & COURSEWORK

Relevant Coursework: Object Oriented Programming (Java), Database Management Systems (RDBMS), Operating Systems, Design & Analysis of Algorithms.

Certifications: Data Structures & Algorithms (Apna College), Google Data Analytics (Coursera - Pursuing).
